

# Why Leasing?

## Loan Payments

Financing the same equipment can cost far more per month. Just think what you can do with the extra cash.

## Designed for You

Concentra Financial offers lease programs for almost any type of business and equipment.

## Latest Equipment

Replace or upgrade at the end of your term. With leasing, you can always have the latest equipment.

## Preserve Credit

Leasing expands your available capital without interfering with your established credit.

## Overcome Budget Restrictions

You can't always predict when you'll need equipment. Leasing enables you to obtain what you need now, even if it is not budgeted.

## Pay as You Profit

Let's work together to design a lease program for the equipment you need.

For example:

- heavy equipment for construction, mining, forestry and energy sectors
- office equipment
- portable buildings and trailers
- production, packaging and material handling equipment
- grain bins and harvest equipment
- utility trucks and trailers
- machine tools and robotics
- banking systems
- equipment for retail industry
- computer networks and communications systems
- medical, laboratory and diagnostic equipment

**Commercial Leasing**  
*simple, flexible, possible*
